

GETTING ON COURSE

Designing THE MUSEUM OF
CALIFORNIACRAZY

Sid Cahuenga

Then get ready for a whole new spin on history...

Cahuenga's Kooky California!

Taking the reference from the California Crazy inspired miniature golf courses - experience incredible larger-than-life structures, where a hole-in-one is guaranteed for everyone!

Everybody takes to the course in the largest golf balls ever seen and there are a few surprise encounters along the way. If you can read and spin at the same time then use the

guide provided to learn, or simply hold on tight and wonder at what it would have been like to experience these oddities at first hand!

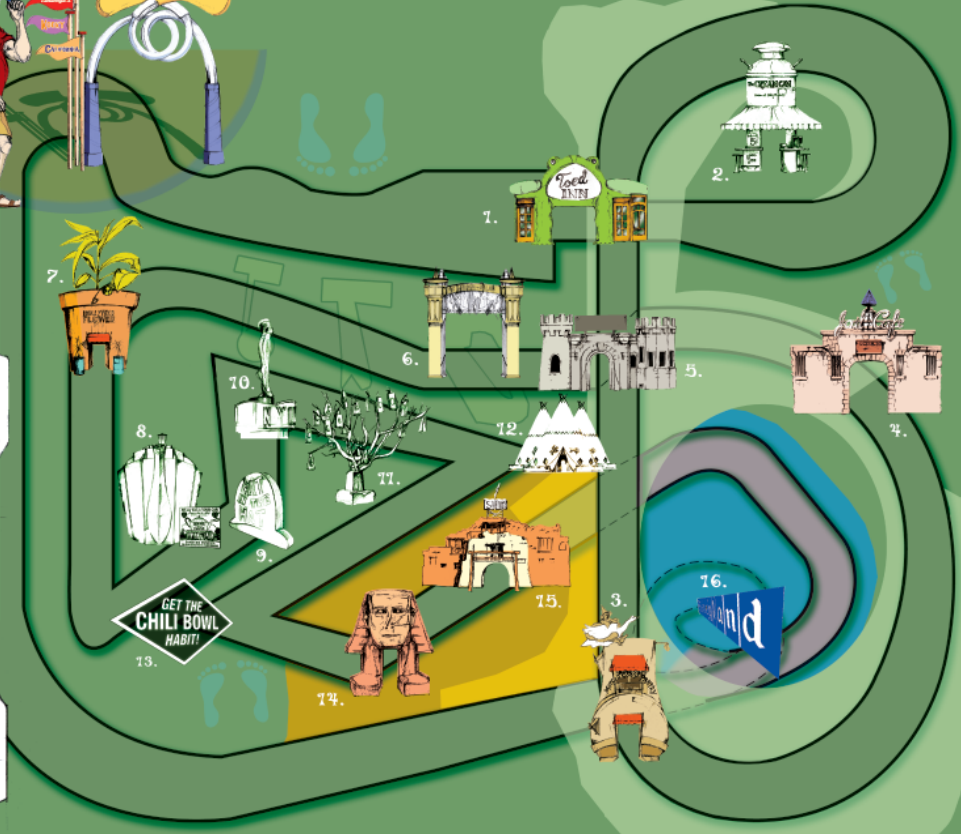

Be sure to check out the out-of-state mural before you leave the ride and see how much the influence the style had across America!

Yet there is one thing you must watch out for though - THE CLUB!

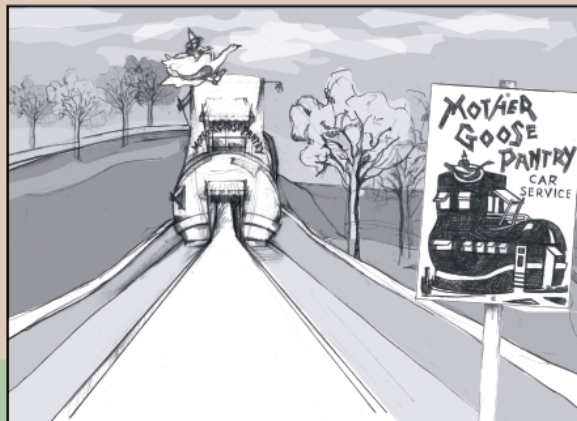

Greet Sid as you enter the course
